

Track your health and set dose reminders with the Accredo® mobile app!

Our mobile app isn't just for ordering refills and checking their status on the go — it can also help you manage your health.

Dose Reminders

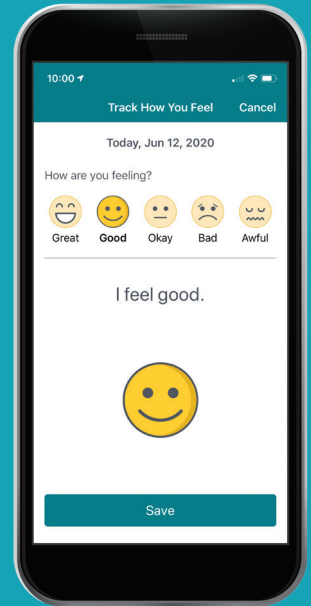

In today's busy world, remembering to take medications isn't always easy. Use the app to set up reminder notifications so you won't miss a dose.

Health Trackers

Managing a complex health condition means some days are better than others. Our health tracker allows you to record how you feel each day, in order to help you monitor side effects — the app also makes it easy to share this information with your doctor.

Download the Accredo app today to start using these convenient tools for monitoring and improving your health.

Get started in three easy steps:

Go to the App Store® or Google Play™ and search “Accredo” to download the app.

Be sure to have your Accredo prescription number ready – if you already have an accredo.com account, you will use the same username and password.

Log in to the app and begin managing your specialty medications on the go!
